Executive Summary

MERN Stack Developer with hands-on experience building responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing secure RESTful APIs, implementing JWT authentication, and managing application state with Redux Toolkit. Experienced in delivering real-world projects including fintech, tracking, and expense management applications. Eager to contribute strong technical expertise, problem-solving abilities, and collaborative skills to a software development role.

Technical Skills

Programming Languages: JavaScript

Frontend Technologies: React.js, Redux Toolkit, React Router, Tailwind CSS, Axios

Backend Technologies: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, Mongoose

Tools & Platforms: Git, GitHub, Postman, Render.com, MongoDB Atlas

Web Development Concepts: Full-Stack Development, Authentication & Authorization, State Management, API Integration, Responsive Design

Soft Skills

- Communication & Teamwork
- Problem Solving
- Time Management
- Adaptability
- Analytical Thinking
- Continuous Learning

Professional Projects

Metal Trading System

Full-Stack Gold & Silver Trading Platform

Role: Full-Stack Developer

Responsibilities:

- Developed a fintech platform for buying, selling, and investing in precious metals.
- Integrated live market price APIs with automatic INR conversion functionality.
- Built SIP investment modules for recurring investments.
- Created KYC management modules for user verification.
- Implemented role-based dashboards for Users, Staff, and Administrators.
- Integrated MongoDB Atlas for cloud database management.

Impact:

- Delivered a complete end-to-end trading platform.
- Enabled real-time pricing and investment tracking capabilities.
- Streamlined user onboarding through integrated KYC workflows.
- Supported multiple user roles through secure access management.

Location Tracker

Real-Time Artist Tracking Application

Role: Full-Stack Developer**Responsibilities:**

- Built a real-time location tracking application.
- Integrated Geolocation API for live location updates.
- Implemented map visualization using Leaflet Maps..

Impact:

- Enabled real-time location visibility and monitoring.
- Improved user experience through interactive map-based tracking.

Expenses Tracker

Full-Stack Expense Management Application

Role: Full-Stack Developer**Responsibilities:**

- Developed a complete expense tracking and management system.
- Created dashboards for monitoring income and expenses.
- Implemented data visualization features for financial analysis.
- Integrated backend services for secure data management.

Impact:

- Simplified personal expense monitoring and reporting.
- Improved financial visibility through interactive dashboards and visual analytics.

Education

Bachelor of Science (B.Sc.) in Computer Science

National College (Autonomous), Tiruchirappalli
CGPA: 7.90 / 10.0

2025

Awards & Accomplishments

- Full Stack Web Development Masterclass – Udemy
- MERN Stack Development Professional Training – DCT Academy
- Successfully completed Artificial Intelligence Internship at Pantech Prolabs India Pvt Ltd
- Developed and deployed multiple full-stack MERN applications
- Built a production-ready fintech trading platform with real-time integrations
